**Dream South Beach** The latest design-driven property from Vikram Chatwal Hotels features 108 guestrooms including a magnificent Sun house, innovative dining and Highbar, an intimate rooftop lounge with views of the Atlantic. Dream South Beach is a fashion-forward boutique hotel situated in the heart of Miami's thriving neighborhood. With a creative concept spearheaded by designer Kelly Ogden of Elk Collective, Dream South Beach is a transformation of two iconic Art Deco buildings, the Palmer House and the Tudor Hotel, with décor elements evoking a feeling of late '70s glamour by way of modern Moroccan design.
